

Building Optimization Investigation Application

Efficiency Nova Scotia offers financial incentives towards the cost of an investigation study that identifies recommissioning opportunities in existing commercial, industrial and institutional buildings. We can help you with templates and guidelines for completing the study, lend you test equipment at no charge, and cover the full cost of the study up to a maximum of \$2,500.

Eligibility

Qualifying facilities will have:

- Annual consumption of 350,000 kWh or greater;
- A functioning Building Automation System (BAS); and
- Not been commissioned in the last three years
