

HomeWarming Application

Overview and Eligibility

HomeWarming provides a free home energy assessment, and may provide free energy upgrades based on that assessment, to eligible homeowners with low incomes. Applications are limited to one per household.

To be eligible, the following criteria must be met:

- Applicant must meet HomeWarming's income qualifications as specified in the Income Qualification Chart in this application (see page 3);
- Applicant must own their home, reside in Nova Scotia, and provide proof of home ownership;
- Home must be the applicant's current primary residence and be occupied year-round, with no expectation to sell the home in the near future;
- Home cannot have multiple units or house a business; and
- Home cannot have previously received upgrades through HomeWarming or the Low Income Homeowner Service.

If your income falls within the income eligibility criteria in this application, here's what to do:

Step 1 - Complete, sign and date this application. If you have other people 18 years old or over in your household, they will also have to sign and date the application.
