

Efficient Product Rebates

Commercial Agricultural Rebate Guide

The following tables list the product requirements and rebates available for a range of energy-efficient agricultural technologies. For more information please visit our website efficiencyns.ca. Rated efficiency for ventilation fans may be listed as “VER” (Ventilating Efficiency Ratio). For Circulation fans, rated efficiency may be listed as “Efficacy Ratio”, measured in thrust-cfm/Watt. Visit bess.illinois.edu and amca.org for more information.

If your utility bill is less than \$3,800 monthly and you have not yet purchased your products, your business may qualify for rebates in addition to those listed here.
